

National Neuroscience Benchmark Group

Ground Rules

- Membership is open to all neuroscience practitioners in England, Wales, Scotland and Ireland
- Host Units will be responsible for recording minutes of the meeting and disseminating these to regional leads for distribution
- Minutes of regional meetings will be distributed to other regional leads for information
- There will be at least two national meetings per year
- Each Regional lead and one other must commit to attend each National meeting
- Members must be open to comparison and willing to share best practice
- Dates and venue of forthcoming meetings to be determined in advance
- Confidentiality must be maintained within the group
- Ensure there is open communication between the group members
- Each regional group must be committed to achieve agreed action
- All documentation to be dated
- Any documentation that is used from any other Benchmark group must be acknowledged
